

To the Ferrero HR Team,

My name is Taylan Özveren. I'm a third-year student at Yeditepe University, studying Information Systems and Technologies. I'm very interested in joining your internship program. I can work 3 or 4 days per week during the semester.

I have a strong interest in data, AI, and digital transformation. Lately, I've been exploring Large Language Models (LLMs) and AI agents through projects using Hugging Face tools. I like to experiment with how smart systems can be used in real-life company processes — from automation to customer insights.

I'm also attending the Microsoft Azure Engineering Program, where I'm learning about cloud platforms, data management, and AI services. The training will be completed by the end of August, and I will take my engineering certification exams after that.

I believe Ferrero's innovative and global environment would be a great place to apply what I've learned and grow further. I'm excited about the opportunity to contribute and learn from your team.

Thank you for your time and consideration.

Looking forward to hearing from you!

Best regards,

Taylan Özveren
